a t-shirt

On July 17th, 2018 this family received the news that no family should receive. Dakota was diagnosed with BPDCN (Blastic Plasmacytoid Dendritic Cell Neoplasm). BPDCN is an aggressive and deadly hematologic blood cancer. At this time there is currently no cure for this blood disease. Circumstances will only allow certain chemo treatments at this time that could possibly delay the inevitable. Dakota will undergo treatments every three weeks in Houston at MD Anderson which will take four days each time to complete. On top of that, Dakota will be required to go to MD Anderson approximately every three days for observation.

Dakota is a 28 year old married father of four (Raylyn, Christopher, Dallas, and Chance), who works at Cook Tire in Livingston. Before working at Cook Tire, Dakota served his country in the military. He is originally from the Lufkin area but has resided in Polk County for the last 4 years. His favorite past time is anything outdoors. He loves hunting, fishing and camping with his family. He also loves to ride his motorcycle and tinkering with automobiles. His wife Natosha is employed at the Post Office in Livingston and has been a life time resident of Polk County. Both Natosha and Dakota will help anyone anyway they can. Please come out and show your support to this family as they fight this monster that came out of nowhere.

Wear orange to show your SUPPORT!!!!

**Cook Tire & Service Center, 209 US 59 Loop S, Livingston, Texas
you may call Natosha (936)433-8915 with any questions or donations**
